

Ioniser – ease of use, guaranteed success

- oxidation without chemical additives and residues
- portable device for mobile use
- deodorising and disinfecting
- stainless steel housing and high quality finish

The **UVpro** ION 300S high performance Ioniser is a disinfection device and odour neutraliser for professional use. It is highly effective in removing nicotine, moisture, animal and mould smell. Ions and ozone also have a disinfecting effect and can therefore be used very effectively against bacteria, viruses and mould. Use in industries such as food production, hotels, restaurants, car preparation, retirement and nursing homes, as well as fire and water damage restoration.

## SPECIFICATIONS

<b>UVpro</b>	
Type	<b>UVpro ION 300S</b>
In conformity with requirements	CE, IP20
Material	stainless steel
Operating temperature [°C]	-20...+50
maximum relative humidity [%]	85
Input power [W]	25
Current flow [mA]	110
Regulation stages	low / high
Output [l/min]	~50
Noise emission [dB]	30
Size (L x B x H) [mm]	613 x 240 x 200
Weight [kg]	9.3
Tube replacement interval [h]	26,000 (about 3 years of continuous operation)
Life expectancy electronics	> 10 years
Supply voltage [V <sub>AC</sub> ]	220...240 (50...60 Hz)
Power cable length [m]	2
The unit is also available for rent. Technical changes reserved.
